EXPERIENCE

Product Manager, UX Modernization

Sep 2024 – Present

CSC Corptax

- Led modernization across product areas, improving usability, accessibility, and visual consistency.
- Rapidly prototype mockups and user flows using AI-powered tools including Loveable and Claude, leveraging Claude Skills to accelerate design iteration and stakeholder alignment.
- Spearhead integration of AI-powered, agentic workflows into core product experiences, identifying high-value use cases that improve efficiency, reduce manual effort, and enhance decision-making.
- Embed AI into product development workflows cross-functionally, improving operational efficiency and decision-making speed.

Product Management Intern

May 2024 – Sep 2024

CSC Corptax

- Supported customer and business operations teams in managing software release projects end-to-end.
- Conducted statistical data analyses, consolidated data from multiple sources, and collaborated with functional teams on analytical projects.

Product Designer

Sep 2023 – Jun 2024

BU Spark! Product Design Internship

- Selected to continue development of a sustainability application from the Innovation Fellowship, focused on completing development and launching on the App Store.

Project Manager

Jan 2024 – Jun 2024

BU Spark! X-Lab Software Engineering Practicum

- Managed technical projects spanning a sign language research platform, disability accommodations app, and housing platform.
- Maintained partner and client relationships to ensure satisfaction with student team deliverables.

President

Jan 2023 – Jan 2024

Girls Who Code, BU Chapter

- Led chapter operations with a 12-member executive board, driving strategic direction and organizational growth.
- Spearheaded initiatives resulting in a 150% increase in chapter funding and a doubling of membership.
- Launched developmental workshops and networking events to foster an empowering community for women in tech.

Communications Chair

Dec 2021 – Dec 2022

Girls Who Code, BU Chapter

- Managed the chapter's brand presence at Boston University, designing promotional graphics, overseeing merchandise creation, and maintaining social media accounts across Instagram, Facebook, LinkTree, and Discord, as well as the chapter website.

PROJECTS

Innovation Fellowship: Dibs!

Jan 2023 – May 2024

Lead Front-End Developer and UX/UI Designer

- Built a sustainability-focused web app to reduce waste among college students using React and Google Firebase.
- Conducted over 50 user research interviews to inform feature prioritization and user-centric design, ensuring product-market fit.
- Engineered a high-fidelity Figma prototype and led front-end development in React using iterative, agile processes.
- Tested competing feature and design variants with ~10 users, using comparative feedback to inform the final product direction.
